

Vinyl Standard Single-Wide Combo Exterior Shutters

Single Wide

Shutter Panel Specifications

Panel Depth: 7/8"
 Material Thickness: 1/8"
 Top Rail : 2" - 3"
 Divider Rail : 2" - 3" height
 Bottom Rail : 3" - 4" height
 Side Stile : See Below
 Raised Panel : 1 1/4" wide beveled edge @ 11°
 Louvers : 7/8" - fixed 18° angle - spaced on 1" centers - slanted down with 3/8" space
 Straight Top: Intended for rectangular windows
 Eyebrow Top: Select from a 1", 2" or 3" drop ratio (the distance from the top point to where the curve begins). Sold in pairs, with one shutter for the left and one for the right side of the window.

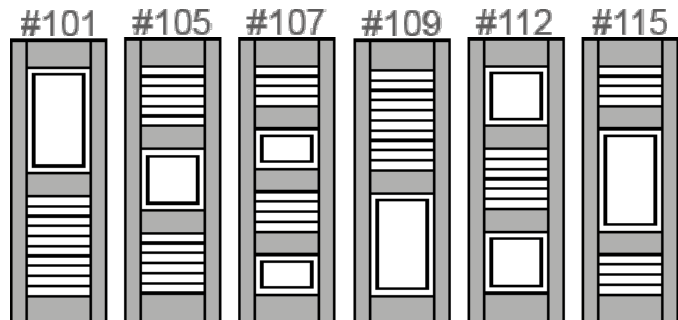

Straight

Eyebrow

Constructed from durable vinyl, fully assembled, and ready for installation. Combo panels are heat welded with stapled multi-piece components. Combo shutters are decorative only, made with a hollow open back. All shutters have a molded wood grain texture and beaded detail.

Combo Shutter Profile:

Select the desired combination of louvers and raised panel(s) components.

Available Sizes:

Double-Wide panels may be used for wide windows.

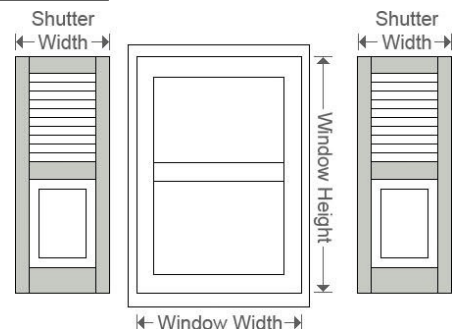

Width	Standard Heights*	Side Stiles
7"	20" - 97"	1.0625"
9"	20" - 97"	2"
10"	20" - 97"	1.0625"
12"	20" - 97"	2"
14.50"	20" - 97"	2"
16.25"	20" - 97"	2.5"
17.75"	20" - 97"	4"

*All shutters are available in heights up to 97" in 1/4" increments. Shutters in excess of the standard size will incur an additional charge for oversize shipping.

Measure:

Width: Shutter width depends on the space available around a window, as well as desired appearance. For an appearance of functioning shutters, shutter width should be about half the width of the window (not including the frame).

Height: Measure the height of each window or door (sash) and order the shutters in the same heights (do not include the frame of the window or door in your measurements).
